EAI & EY ***Estimated Annual Income (EAI) & Estimated Yield (EY)*** *- EAI is an estimate of annual income for a specific security position over the next rolling 12 months. EAI may be negative on short positions. EY is calculated by dividing the current EAI for a security position by its statement closing date market value. EAI and EY are estimates only and may include return of principal and/or capital gains, which would render them overstated. Actual income and yield might be lower or higher than the estimated amounts.* ***For calculation details, refer to the "Additional Information and Endnotes" section.***

Total Cost Basis does not include the cost basis on core, money market or other positions where cost basis is unknown or not applicable.

This table presents the estimated monthly interest and dividend income and return of principal that your current holdings may generate over the next rolling 12 months. The cash flows displayed are estimates provided for informational purposes only and there is no guarantee that you will actually receive any of the amounts displayed. These estimates should not be relied upon for making investment, trading or tax decisions. The estimates for fixed income are calculated using the security's coupon rate. The estimates for all other securities are calculated using an indicated annual dividend (IAD). The IAD is an estimate of a security's dividend payments for the next 12 months calculated based on prior and/or declared dividends for that security. IADs are sourced from third party vendors believed to be reliable, but no assurance can be made as to accuracy. There are circumstances in which these estimates will not be presented for a specific security you hold. **Please refer to Help/Glossary on Fidelity.com for additional information on these calculations.**

Bond & CD Income includes interest payments for fixed and variable rate bonds, international bonds that pay in USD, certificates of deposit (CDs), and credit union share certificates (CUSCs).

- Order Flow Practices: As the introducing broker for your account, FBS routes your orders to our clearing firm affiliate, National Financial Services ("NFS"). In deciding where to send orders received for execution, NFS looks at a number of factors, such as size of the order, trading characteristics of the security, favorable execution prices (including the opportunity for price improvement), access to reliable market data, availability of efficient automated transaction processing, and execution cost. Some market centers or broker-dealers may execute orders at prices superior to the publicly quoted market. NFS's order routing policies are designed to result in transaction processing that is favorable to its customers. Where a customer directs the market center to which an order is routed, FBS or NFS will route the order to such market center in accordance with the customer's instructions without regard to its general order-routing practices.

  FBS and/or NFS receives remuneration, compensation, or other consideration for directing customer orders to certain market centers. Such consideration may take the form of financial credits, monetary payments, rebates, volume discounts, or reciprocal business. The details of any credit, payment, rebate, or other form of compensation received in connection with the routing of a particular order will be provided on your request. Unless your account is managed on a discretionary basis by Strategic Advisers LLC, an affiliate of NFS, NFS may execute certain transactions as principal. In addition, from time to time, Fidelity may provide aggregated trade execution data to customers and prospective customers.

  Order Routing Disclosure Quarterly reports: Quarterly information regarding the routing of orders by NFS in listed equity securities and listed options is available online at Fidelity.com. The reports are formatted in accordance with Securities and Exchange Commission requirements. Investor Inquiry: You can request your specific order routing and execution information for the preceding six months. This information will include the identity of the marketplace where your orders were routed for execution, whether the orders were directed or non-directed, and, if executed, the time of the execution. You may contact Fidelity for additional details on the information that is available.

  BrokerCheck(R) by FINRA: As part of the Financial Industry Regulatory Authority (FINRA) BrokerCheck program, you have access to the BrokerCheck hotline at 800-289-9999 and FINRA website at www.finra.org. You can call or email your inquiries and request a brochure that includes information detailing the BrokerCheck program.

  Municipal Securities Rulemaking Board Investor Brochure: Fidelity Brokerage Services LLC is registered with the U.S. Securities and Exchange Commission (SEC) and the Municipal Securities Rulemaking Board (MSRB). An investor brochure may be obtained at MSRB.org that describes the protections that may be provided by the MSRB and how to file a complaint with an appropriate regulatory authority. 445123.15.0

- Beginning in December, Fidelity may apply a quarterly Residual Balance Maintenance Fee of up to $5 to brokerage accounts with residual balances below $100 that are not invested (other than in a core position) and have not been used for any financial transactions other than core dividend and interest reinvestment in over a year. The fee will not apply to customers who have aggregate account balances across all Fidelity brokerage and Workplace Investing accounts that exceed $100 or who have a Fidelity Workplace Investing account linked to a current employer. The fee amount charged will not exceed the residual account balance. If action is taken or funds are withdrawn prior to the fee assessment, the fee will not be debited from the account. 1277048.1.0

Assignments of American and European-style options are allocated among customer short positions pursuant to a random allocation procedure, a description is available upon request. Short positions in American-style options are liable for assignment anytime. The writer of a European-style option is subject to exercise assignment only during the exercise period. For more information, please call Fidelity at 800-544-6666. **Equity Dividend Reinvestment** Shares credited to your account resulted from transactions by FBS acting as agent for your account, or the Depository Trust Company (DTC). **Price Information/Total Market Value** The Total Market Value has been calculated out to 9 decimal places but the individual unit price is displayed in 5 decimal places. The Total Market Value represents prices obtained from various sources, may be impacted by the frequency with which such prices are reported and such prices are not guaranteed. Prices received from pricing vendors are generally based on current market quotes, but when such quotes are not available the pricing vendors use a variety of techniques to estimate value. These estimates, particularly for fixed income securities, may be based on certain minimum principal amounts (e.g. $1 million) and may not reflect all of the factors that affect the value of the security, including liquidity risk. In certain situations, a price may be derived from a single market participant, also known as a "single broker quote". The prices provided are not firm bids or offers. Certain securities may reflect as N/A or unavailable where the price for such security is generally not available from a pricing source. The Market Value of a security, including those priced at par value, may differ from its purchase price and may not closely reflect the value at which the security may be sold or purchased based on various market factors. The sale or redemption of any fixed income security prior to maturity may result in a loss.
Executing Orders on the Floor of the NYSE The Floor broker may permit the Designated Market Maker to trade on parity with the order for some or all of the executions associated with filling that order, where such permission would not be inconsistent with the broker's best execution obligations.
